3 **Special Act**

This Act shall be deemed to be a special Act within the meaning of the Harbours Act 1950.

4 **Vesting**

The land described in the Schedule is hereby vested in the Board as an estate in fee simple for the purposes of this Act and subject to the provisions of the Harbours Act 1950.

5 **Council may enter into deed with Board for reclamation**

The Council may enter into a deed with the Board to provide for and enable the Council to undertake the reclamation of not more than 12.5 hectares of the land described in the Schedule, or any part or parts thereof, on such terms and conditions as shall be agreed to by the Council and the Board.

6 **Authority for Council to reclaim**

- (1) Subject to the provisions of the Harbours Act 1950 and of this Act, the Council may, after it has entered into a deed with the Board pursuant to section 5 of this Act, reclaim the land referred to and described in that deed (being not more than 12.5 hectares), or any part or parts of it, for the purpose of a boat harbour:

provided that the construction of the reclamation shall not be commenced until such time as—

- (a) the boat harbour and any proposed reclamation in connection therewith has been included as a permitted use in the operative district scheme for Auckland in accordance with section 16(2); or
- (b) provision has been made for the boat harbour or any proposed reclamation in connection therewith in a proposed change or review of the Council's district scheme, as the case may be, pursuant to section 16(2) and either—

 - (v) if an appeal has been wholly or partly allowed, construction of at least part of the reclamation would not be in contravention of the decision.
- (2) In addition to the requirements contained in the proviso to subsection (1), the construction of the reclamation shall not be commenced until the Council has by resolution certified that in its opinion steps towards the provision of reticulated water and sewage disposal facilities are by then so sufficiently advanced and programmed as to ensure that those facilities will be available to service the land described in the Schedule before it is occupied for any of the purposes authorised by this Act; and until all necessary rights have been acquired under the Water and Soil Conservation Act 1967 in respect of the discharge of the natural water or waste into natural water or for the taking or use of natural water for the purposes of the relevant services referred to in section 10(1)(b)(ii) of this Act.

Section 6(1) proviso paragraph (a): amended, on 1 November 2010, by section 113(1) of the Local Government (Auckland Transitional Provisions) Act 2010 (2010 No 37).

7 Reclamation to comply with the requirements of the Board

- (1) Notwithstanding any terms and conditions of any deed entered into by the Council and the Board as aforesaid and in addition to any obligations imposed on it thereunder, the Council shall, before commencing construction of any reclamation under the authority of this Act, deposit at the office of the Board a duplicate copy of the plan or plans of the proposed reclamation deposited or to be deposited by it at the office of the Ministry of Transport pursuant to section 178 of the Harbours Act 1950.
- (2) On receiving such plan or plans the Board may make and notify the Council of such restrictions, conditions, or requirements relating to the construction, maintenance, or protection of the reclamation, or any part or parts thereof, as it may determine, and may thereafter from time to time make and notify the Council of such further or other requirements relating to the reclamation as it may determine, and the Council shall comply with such restrictions, conditions, and requirements in all respects to the satisfaction of the Board.
- (3) Without limiting the generality of subsection (2) the Council shall—
- (a) construct and maintain such enclosing banks as may be required by the Board in such manner as to—

 - (ii) prevent the escape of organic or other material into tidal waters:
- (b) construct and maintain such storm water, sewerage, and other drainage works as may be required by the Board so as to prevent or avoid any flooding or similar damage to any adjoining properties.
- (4) Nothing in this section shall be construed as limiting the application of the provisions of the Harbours Act 1950 and, in particular, sections 175 to 182 of that Act to any such reclamation or the duties and liabilities of the Council as the constructing authority in respect of such reclamation.

8 Authority for Board to transfer land to Council

Subject to the terms and conditions of any deed entered into by the Council and the Board as aforesaid being met and to any restrictions, conditions, or requirements made by the Board pursuant to section 7 having been complied with by the Council, the Board shall at such time as the land, authorised to be reclaimed, or any part or parts of it, has been reclaimed from the sea, transfer the fee simple of the land that has been so reclaimed to the Council without consideration for the purpose of a boat harbour, and the land shall thereupon vest in the Council as an estate in fee simple for that purpose without further authority than this section.

9 Authority for Board to subdivide the bed of harbour

The Board is hereby authorised, for the purpose of entering into any deed or lease with the Council which may be necessary for the purposes of this Act, to subdivide the whole or any part or parts of the land described in the Schedule (whether reclaimed or not) in such manner as it thinks fit, and may do all such things as may be necessary for that purpose:

provided that the provisions of Parts 20 and 21 of the Local Government Act 1974 shall not apply in respect of any subdivision authorised under this section.

10 Authority for Council to develop and operate a boat harbour

- (1) Subject to the terms and conditions of any deed entered into by the Council and the Board as aforesaid under section 5, the Council may develop and redevelop from time to time the whole or any part or parts of the land described in the Schedule for boat harbour purposes and, without limiting the said general power of development, the Council may in respect of the whole or any part or parts of that land which is from time to time reclaimed from the sea—
 - (a) subdivide and resubdivide the whole or any part or parts of such reclaimed land into suitable allotments for boat harbour purposes or any of them:

provided that any such subdivision shall be subject to the appropriate provisions of the Local Government Act 1974, and all other relevant statutory provisions, relating to subdivisions:

- (b) construct or provide such public works or amenities as are necessary or desirable for the use and enjoyment of such reclaimed land for boat harbour purposes, including—

 - (iv) means of access and communication by land and by water; and
 - (v) sheds or any other structures included in a boat harbour.
- (2) Subject to the terms and conditions of any licence or permit which may be granted by the Board to the Council pursuant to section 12, the Council may operate any boat harbour on the whole or any part or parts of the land (including any part of the foreshore or of the bed or of the waters of the sea) described in the Schedule, and may make and impose such charges and fees as it shall from time to time resolve or fix in respect of the use of such boat harbour or any of the facilities provided therein.

11 Council may permit other persons to carry out reclamation, development, and operation of boat harbour

For the purpose of carrying out and constructing the reclamation, or any part or parts of it, or of developing or redeveloping the said land or any part or parts of it, or for the purpose of ensuring the operation of the boat harbour including the maintenance of the waterways as provided by section 15, the Council may grant a licence to or contract with any person or persons or local or public authority to undertake and to carry out all or any of the activities relating to such reclamation or development or operation of a boat harbour as authorised by sections 6, 10, and 15, or to carry out all or any works which may be necessary or expedient in connection with any such reclamation, development, work, or operation in every case upon such terms and conditions as the Council may think fit. In granting any such licence or entering into any such contract the Council shall require the insertion therein of a sufficient penalty or bond to ensure the fulfilment of such licence or contract according to the terms and conditions thereof.

12 Authority to licence foreshore and seabed

- (1) In addition to all other powers conferred on the Board and the Council under this Act, or any other Act, the Board may licence or permit any part of the fore-

shore or seabed vested in it under this Act, or any berth or other marine structure or facility located thereon, and the Council may licence or permit any part of the foreshore or seabed vested in it under this Act or held by it under licence granted under the authority of this Act, or any berth or other marine structure or facility located thereon, to be used or occupied for the purpose of a boat harbour for such period (not exceeding 21 years or such longer period not exceeding 50 years as the Minister of Transport approves) and upon such terms and conditions as the Board or the Council, as the case may be, thinks fit.

- (2) Sections 7, 8, 17, 18, and 19 of the Public Bodies Leases Act 1969 shall not apply to the leasing by the Council or to any lease granted by the Council of the whole or any part or parts of such reclaimed land pursuant to this section.

- (3) The Board may stipulate in the said deed or may at any time thereafter notify the Council in writing of such reasonable restrictions, conditions, and requirements relating to the maintenance and dredging of any waterway, or any part or parts thereof, as it may determine, and the Council shall comply with such restrictions, conditions, and requirements in all respects to the satisfaction of the Board.

Notes**1 General**

This is a reprint of the Waitemata City Council (West Harbour) Empowering Act 1979. The reprint incorporates all the amendments to the Act as at 1 November 2010, as specified in the list of amendments at the end of these notes.

Relevant provisions of any amending enactments that contain transitional, savings, or application provisions that cannot be compiled in the reprint are also included, after the principal enactment, in chronological order. For more information, see <http://www.pco.parliament.govt.nz/reprints/>.

2 Status of reprints

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 How reprints are prepared

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, see <http://www.pco.parliament.govt.nz/editorial-conventions/> or Part 8 of the *Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force*.

4 Changes made under section 17C of the Acts and Regulations Publication Act 1989

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted

enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted.

A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)
- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)

- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
