- (5) For the purposes of any determination by a registered valuer under this section, the term **unimproved value**, in relation to any land, means the sum that the owner's estate or interest in the land, if unencumbered by any mortgage or other charge, might be expected to realise at the time of valuation if offered for sale on such reasonable terms and conditions as a bona fide seller might be expected to impose, and if no improvements had been made on the land.
- (6) Every certificate given by a registered valuer for the purposes of this section shall have attached to it, or written or printed on it in prominent characters, a notice to the effect that the valuation to which the certificate relates is subject to objection in the manner prescribed by and within the time limited in accordance with section 38.

- (1) The chief executive may construct such waterworks as the chief executive thinks necessary for the supply of water to any land subject to this Part, or may purchase any existing waterworks, and may supply water from the waterworks for any farming, industrial, commercial, or domestic purposes to any land that is being developed, farmed, used, or occupied under this Part and to any other land that, by reason of its proximity to the waterworks, may conveniently be supplied with water.
- (2) For the purposes of this section, the term **waterworks** shall include reservoirs, wells, bores, dams, tanks, water mains, pipes, buildings, machinery, works, and appliances of every kind for collecting, holding, conveying, or regulating the supply of water, and shall also include land or interests in land acquired for catchment areas or for any other purpose connected with the construction or maintenance of waterworks and all water impounded, diverted, or conveyed during the construction or operation of waterworks.
- (3) For the purposes of this section, the term **occupier**, in relation to land subject to this Part, means the person whose occupation of the land has been approved by the chief executive and, in relation to any other land, means the owner or lessee or other lawful occupier of the land.
- (4) The chief executive by his or her officers, workmen, and others by the chief executive's direction, may enter on any land for the purpose of examining or repairing any waterworks under the control of the chief executive. In exercising the powers under this subsection, the chief executive and any person acting under the direction of the chief executive shall do as little damage as possible and, whenever practicable, shall give notice to the occupier of the land before any such entry. Any loss or damage suffered by the owner or occupier of any land by reason of any such damage shall be compensated by the payment of such amount as may be agreed upon between the chief executive and the owner or occupier or, in default of agreement, as may be determined by arbitration under the Arbitration Act 1996.
- (5) The chief executive may from time to time by notice in the *Gazette* declare any area to be a water area for the purposes of this section (being land on which waterworks are erected or are intended to be erected for the supply of water to that land), and the area so declared may from time to time be added to or

reduced by an amending notice. The provisions of section 22 shall apply to any notice under this subsection.

- (6) The occupier of any land in a water area shall pay in respect of the cost of waterworks and the water supplied or available to the occupier such amounts by way of levy as the chief executive from time to time determines. Any levy so made shall be recoverable as a debt in any court of competent jurisdiction, but without prejudice to any other remedy that may be available against the occupier.
- (7) The levies shall be of such amounts as appear to the chief executive to make adequate provision for meeting repayment of the capital outlay, or so much of the capital outlay as the chief executive thinks fit, together with interest, running expenses, and the cost of maintenance of the waterworks. In fixing the amount of any levies, the chief executive may have regard to the stock-carrying capacity of the land, the amount of water actually supplied or available, and any other relevant factor that will enable the chief executive to fix equitable or reasonable amounts.
- (8) Any waterworks constructed or purchased by the chief executive under this section may be disposed of by the chief executive on the payment of such amount and subject to such conditions as the chief executive in each case determines.
- (9) Any local authority or department of State to which any waterworks are disposed of under subsection (8) or any subsequent disposal shall have the same power to enter on land to examine or repair waterworks as the chief executive has under subsection (4) and the same power to make and recover levies as the chief executive has under subsections (6) and (7), and all the provisions of those subsections shall, with the necessary modifications, apply accordingly to any waterworks so disposed of. The chief executive may, subject to such terms and conditions as the chief executive thinks fit, from time to time advance or readvance money to any local authority to which the chief executive has disposed of any waterworks.
- (10) Notwithstanding anything to the contrary in any Act or rule of law, any waterworks constructed or purchased by the chief executive under this section shall remain the property of the chief executive or, as the case may be, of the local authority or department of State for the time being entitled to the waterworks under any disposal of the waterworks under this section or under any subsequent disposal, and may be at any time removed by the chief executive or other owner without liability for payment of compensation to the owner of the land on which the waterworks are erected or to any other person, notwithstanding that the waterworks may have been so attached to the land as to form part of the land.
- (11) The chief executive may from time to time appoint a committee of management in respect of any water area and may delegate to any such committee any powers or functions conferred on the chief executive by this section subject to

such terms and conditions as the chief executive thinks fit. Any such committee shall consist of such number of persons occupying land in the water area as the chief executive thinks fit and not more than 2 other persons.
