Explanatory memorandum

This memorandum is not part of the determination, but is intended to indicate its general effect.

A provision in the Local Government Act 2002 gives the Remuneration Authority (the **Authority**) responsibility for setting the remuneration of elected local government representatives.

The legislation requires the Authority to have regard to the need to—

- minimise the potential for types of remuneration to distort the behaviour of the elected member:
- achieve and maintain fair relativity with levels of remuneration received elsewhere:
- be fair both to the elected members and ratepayers:
- attract and retain competent persons.

In order to meet its statutory obligations, and in particular to achieve transparency, fairness, and consistency between members, the Authority established appropriate models to assist in determining the cost of governance and representation for each local and regional authority. The models utilised adopted 4 criteria that are transparent and readily verifiable from published data, namely—

- population:
- operational expenditure:
- assets controlled:
- rate of population change.

The application of these models results in an indicative pool of money notionally attributable to each local and regional authority. These indicative pools are used by the Authority to assist in ultimately determining the remuneration for each elected member.

This determination uses indicative pool totals derived from audited annual accounts for the year ended 30 June 2006 and population figures as at the same date.

Local and regional authority members carry out their responsibilities on a diverse basis. In order to assist the Authority to recognise that diversity, councils and members are given the opportu-

ity of proposing to the Authority remuneration levels appropriate for the responsibilities of each position within the council and its community boards. The Authority then determines the remuneration for each member after considering the council recommendations, any dissenting views, or other factors.

The Authority also determines allowances and expenses. The rules governing these are determined by the Authority and must be available for public scrutiny at each council.

This determination covers the period between 1 July 2007 and the date of declaration of the local body elections to be held in October 2007.

The Authority will issue an interim determination to cover the period immediately after the declaration of results until such time as the incoming councils have been able to consider and make recommendations on the distribution of the indicative pool for the balance of the 2007/08 financial year.

Issued under the authority of the Acts and Regulations Publication Act 1989.
Date of notification in *Gazette*: 28 June 2007.

Notes**1 *General***

This is a reprint of the Local Government Elected Members Determination 2007. The reprint incorporates all the amendments to the Local Government Elected Members Determination 2007 as at 24 October 2007, as specified in the list of amendments at the end of these notes.

Relevant provisions of any amending enactments that have yet to come into force or that contain relevant transitional or savings provisions are also included, after the principal enactment, in chronological order.

2 *Status of reprints*

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 *How reprints are prepared*

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and provisions that are repealed or revoked

are omitted. For a detailed list of the editorial conventions, *see* <http://www.pco.parliament.govt.nz/legislation/reprints.shtml> or Part 8 of the *Tables of Acts and Ordinances and Statutory Regulations, and Deemed Regulations in Force*.

4 Changes made under section 17C of the Acts and Regulations Publication Act 1989

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)

- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)
- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
