- (4) The remainder of the separate improvement and development rate shall be expended wholly within or for the benefit of the county town within which it was levied.
- (5) Every separate improvement and development rate made under the authority of this section shall be made as an annually recurring rate, leviable year by year,

without further proceeding on the part of the Council, until all money advanced under section 59 of this Act and all money borrowed and for the time being payable out of the proceeds of the rate are repaid in full, and thereafter until the Council, by resolution, decides that the separate rate be discontinued:

Provided that no such rate shall be discontinued while any work which has been commenced and in respect of which the rate has been made and levied remains uncompleted.

- (6) Every separate rate made under the authority of this section shall be appropriately adjusted in the event of any revaluation of the rateable property in the county town effecting an increase or reduction in the rateable value thereof.
- (7) The powers conferred by this section are in addition to and not in substitution for any other powers the Council may have to make and levy general or other rates in respect of the rateable property in any county town, and rates may be made under the authority of this section notwithstanding that those rates, together with any other rates from time to time made by the Council in respect of that property, shall exceed the maximum general or other rates which may be made in any year under the provisions of the principal Act.

#### **61 Differential rating in county towns**

- (1) The Council may from time to time, by resolution, declare that the general rate that would otherwise be made and levied on all rateable property within the county or, in any case where the general rate is made and levied separately in each riding of the county, on all rateable property within the riding of which the county town forms part, shall not be made and levied on the rateable property within any specified county town, and that in lieu thereof a county town general rate shall be made and levied under the provisions of this section on all rateable property within the county town, and thereupon the Council shall make and levy a county town general rate (not exceeding the maximum prescribed for the general rate by section 105 of the principal Act) on all rateable property within the county town:

Provided that, except with the prior consent of the county town committee appointed in respect of that county town, the Council shall not make and levy a county town general rate under the provisions of this section if the total amount that that rate is calculated to produce would exceed the total amount that would be produced from all the rateable property in the county town if the general rate made and levied over all the rateable property in the county, or, as the case may be, in the riding of which the county town forms part, had been made and levied over all the rateable property in the county town.

- (2) The proceeds of any county town general rate made and levied under the provisions of this section shall be credited to the County Town Account kept in

respect of that county town, and shall be expended within or for the benefit of that county town:

Provided that there may from time to time be transferred from the County Town Account to the General Account such amount as the Council considers fair and reasonable, having regard to the direct and indirect benefit derived by the county town from the general expenditure of the county:

Provided also that, in the case of a county where the general rate is levied separately in each of its ridings, there may also from time to time be transferred from the County Town Account to the Riding Account of the riding of which the county town forms part such amount as the Council considers fair and reasonable, having regard to the direct or indirect benefit derived by the county town from the expenditure out of the Riding Account.

- (3) The Council may from time to time transfer to any County Town Account from the General Account or from the appropriate Riding Account such sums as it thinks fit to meet the general expenses of the county town.
- (4) Where the Council makes and levies a county town general rate under the provisions of this section,—
  - (a) The amount thereof to be expended within or for the benefit of the county town shall be disregarded in estimating the proposed expenditure of the county under the provisions of section 106 of the principal Act, or in estimating the proposed expenditure of the riding under section 107 of that Act; and
  - (b) The rateable property situated within the county town and the property situated in the county town in respect of which grants are received in lieu of general rates shall, in any case to which section 107 of that Act applies, be disregarded in estimating for the purposes of subsection (3) of that section the rateable value of the property in the riding of which the county town forms part and the rateable value of the property in the county, and, in any case to which that section does not apply, be disregarded in estimating for the purposes of subsection (2) of section 106 of the principal Act the rateable value of the property in the county.

In every such case the provisions of the Rating Act 1967 as to changing the system of rating shall, as far as they are applicable and with the necessary modifications, apply as if the county town were a district of a territorial authority within the meaning of section 2 of that Act.

- (2) Where at any such poll a system of rating is adopted which differs from that in force in the county, then, notwithstanding anything to the contrary in this Act or in the Rating Act 1967, the following provisions shall apply, namely:
- (a) Where any rate is made and levied only on rateable property within the county town, it shall be made and levied on the system of rating adopted at that poll:
  - (b) Where any rate is made and levied on all rateable property within the whole county or within a part of the county which includes the county town, the Council shall, instead of levying that rate on rateable property within the county town on the system of rating in force in the county, make and levy on the rateable property within the county town on the system of rating adopted at the poll a rate calculated to produce a total amount equal to the amount that would have been produced from all the rateable property in the county town if it had been levied on the system of rating in force in the county.
- (3) In order to produce a total amount of rates equal to the amount that would have been produced from all the rateable property in the county town if it had been levied on the system of rating in force in the county, the Council may under paragraph (b) of subsection (2) of this section make and levy within the county town a rate of such amount as may be necessary for the purpose, notwithstanding that it may exceed the maximum rate that may be levied under the provisions of the principal Act.
- (4) Notwithstanding that under the provisions of this section a system of rating has been adopted in a county town which differs from that in force in the county, the number of votes to which the occupier of any rateable property in the county town is entitled under section 51 of the principal Act shall be determined having regard to the rateable value of the property as appearing on the valuation roll of the county and as if the system of rating in force in the county were also in force in the county town.

### **63 Council may exempt farm lands in county towns from separate improvement and development rates**

- (1) In any case where the Council does not make and levy a differential general rate in the county town under section 61 of this Act, the Council may, of its own motion or on the application of the occupier within the meaning of the Rating Act 1967, and on being satisfied that any land within a county town—
- (a) Is used exclusively or principally for farming purposes; and
  - (b) Is not in the opinion of the Council fit for subdivision for building purposes or is not likely in that opinion to be required for building purposes within a period of five years from the date on which that opinion is expressed; and

- (c) Will not derive the full benefit of any improvement and development works carried out under this Part of this Act,—
- exempt that land or any part thereof from the whole or any part of any separate improvement and development rate made in that county town. Every such exemption shall be for such period as the Council thinks fit, and may at any time be revoked or amended by the Council.
- (2) Public notice shall be given by the Council of every decision of the Council under subsection (1) of this section.
- (3) Any ratepayer in the county town aggrieved by any decision of the Council under subsection (1) of this section may appeal therefrom by lodging with the Registrar of the Magistrate's Court nearest to the public office of the Council a notice of appeal setting out the grounds thereof. The notice of appeal shall be lodged within seven days after the giving of the public notice referred to in subsection (2) of this section, and a copy of the notice of appeal shall within the same seven days be lodged at the public office of the Council.
- (4) Not less than three days' notice of the time and place for the hearing of the appeal shall be given by the Registrar to the County Clerk and to the appellant, and also, where the appellant is not the occupier of the land, to the occupier.
- (5) The determination of the Court on any such appeal shall be final.

Provided that, where the Council proposes to proceed further to unite those county towns pursuant to a special order under the said section 51 without any such petition, a poll of the ratepayers in any of those county towns shall be taken on the proposal where—
