- (2) Except as provided in section 16, and section 56 of the Agricultural Pests Destruction Act 1967, nothing in subsection (1) shall authorise any person to hunt or kill or have in his possession any wild animal on any land, or discharge a firearm into or over or across any land, without the express authority of the owner or occupier of that land. Every person commits an offence against this Act who hunts or kills or has in his possession any wild animal on any land, or discharges a firearm into or over or across any land, without the express authority of the owner or occupier of that land.
- (3) Where the Minister considers that hunting by other persons is likely to interfere with any wild animal control operations, studies, investigations, or research carried out by the Department or any other person or body with his authority, he may, by notice, declare that any specified species of wild animal may not be hunted or killed or held in possession in such area and during such period as are specified in the notice.
- (4) The Minister may also, by notice, from time to time advise that, so far as hunting is concerned, specified areas are to be used for recreational, or guided, or commercial hunting, or wild animal recovery operations, as the case may be, or for any combination or all or some of these hunting purposes:
provided that the Minister shall, following prior consultation with the person or authority in charge of any land other than land administered by the Department of Conservation under the Conservation Act 1987 or any other enactment, at all times retain the right, by notice, to do all or any of the following things:

- (5) Notwithstanding anything in the foregoing provisions of this section the Minister shall at all times retain the right, after giving prior notification to the land controlling authority, to enter onto any land in any specified hunting area with such assistants as he thinks fit to survey the condition and trend of vegetation or wild animal communities and to do such other things as he thinks necessary.
- (6) No person shall, in any specified hunting area and during any period specified in any notice under subsection (3), hunt or kill or have in his possession any wild animal to which the notice refers.

12A Deer farms

- (1) Any person may, without a permit or licence issued under section 12, but subject to this section, capture, convey, or keep deer in captivity for the purposes of farming anywhere in New Zealand except—
 - (a) on any land where such farming is controlled by or under this Act or any other Act; or
 - (b) where prohibited pursuant to subsection (2) or any other Act.
- (2) Subject to subsection (3), the Minister may from time to time, by notice in the *Gazette*,—
 - (a) specify those areas or places in which deer farming generally is prohibited:
 - (b) specify those areas or places in which the farming of any particular species of deer is prohibited:
 - (c) specify those areas or places in which deer farming generally is permitted:
 - (d) specify those areas or places in which the farming of any particular species of deer is permitted:
 - (e) specify the fencing requirements for deer farming generally or for deer farming in any specified areas or places:
 - (f) regulate deer farming permitted under paragraph (c) or paragraph (d), subject to any provisions prescribed by regulations made under section 40(1)(e).

- (2A) The requirements of this section that apply in respect of deer kept in a safari park on land on which the farming of deer is regulated also apply in respect of deer kept in a safari park on land on which the farming of deer is not regulated.
- (3) Before giving a notice under subsection (2), the Minister shall,—
- (a) in any case where the notice does anything specified in any of paragraphs (a) to (d) of that subsection, publicly notify the intention to give the notice; and, in that case, section 49 of the Conservation Act 1987 shall apply with any necessary modifications as if the giving of the notice under subsection (2) were an exercise of power under that Act:
 - (b) in every case, have regard to—
 - (i) whether feral deer of the same species are already established in the area concerned; and
 - (ii) whether deer-induced modification of the environment is likely to differ from the modification of the environment caused by introduced animal species that are already present; and
 - (iii) whether the presence of that species of deer is likely to cause additional control costs.
- (4) Where the farming of any deer on any land is regulated under subsection (2), the occupier of the land shall ensure that the enclosures on the land—
- (a) are suitable to contain the deer and prevent their escape; and
 - (b) comply with any specifications prescribed by the Minister under that subsection.
- (5) After complying with subsection (4) (in the case of a deer farm in a regulated area), the occupier of the relevant land shall then notify the Director-General of the occupier's intention to begin keeping deer in captivity on that land, and upon acknowledgment in writing from the Director-General, may begin to do so.
- (6) The notice given to the Director-General under subsection (5) shall be in writing, and shall include the following particulars:
- (a) the location, the legal description, and the nature and tenure of the land:
 - (b) the species of deer proposed to be kept on the land:
 - (c) such other particulars as the Director-General may specify in writing.
- (7) For the purposes of section 9(2) and of subsections (9) to (11) of section 12, an acknowledgment in writing given by the Director-General under subsection (5) shall be deemed to be a permit issued under section 12(3)(a).
- (8) Any deer that—
- (a) escapes from its enclosure; or
 - (b) strays while being lawfully captured, conveyed, or held in captivity, for the purposes of farming,—

shall remain the property of the owner if that deer is identified in accordance with an identification system approved under the National Animal Identification and Tracing Act 2012 or in accordance with an identification system approved under section 50 of the Biosecurity Act 1993 and approved by the Director-General for the purposes of this Act.

- (9) Notwithstanding subsection (8), the following provisions apply in relation to any deer on Crown-owned land:
- (a) any person acting in the course of his or her duties as an employee of the Department, and any other person acting pursuant to a special or general authority conferred for the purpose by the Director-General, may hunt and kill the deer and dispose of the deer:
 - (b) no person is required to notify the owner of the deer that it has been killed or disposed of:
 - (c) no person is required to return the deer to the owner:

within 6 months of the first inspection and concerned with the same purpose at least 7 days' prior notice shall be given in writing to the occupier of the land:

provided also that, where the occupier of land held under any permit, lease, licence, or other authority has a good and sufficient reason for requesting that any inspection be brought forward or delayed in time, the inspecting officer shall not enter onto the land except on the agreed date unless the suggested advance date cannot be complied with or the delay sought by the occupier is greater than 14 days, in which case the inspection may be carried out as previously notified in writing by the inspecting officer.

necessary to ensure protection of any watercourse, or of the soil, or any plants, or any wildlife, or to achieve concerted action, or for such other purpose as the Director-General shall specify.

- (2) Where any occupier, or (where appropriate) the land controlling authority, requests that the Director-General arrange for a wild animal control operation, or where an occupier fails without good and sufficient cause to carry out any direction of the Director-General, the Director-General may, after giving prior notification to the occupier, and (where appropriate) the land controlling authority, of the land, enter onto the land, or arrange that any agent or employee or officer of the Department enter onto the land, and carry out under the supervision of a warranted officer such control measures as are considered by the Director-General to be necessary:

provided that the Minister shall not exercise this power where the occupier can establish to the satisfaction of the Minister that:

- (a) the cost of the control operation would have caused him undue hardship; or
- (b) he could not obtain the manpower, or the assistance of commercial or recreational hunters, or technical or material needs, to enable him to comply with the direction; or
- (c) there were other factors that the Minister accepts as sufficient cause for non-compliance with the direction.

 - (b) wild animals are causing or are likely to cause injury or damage to any trees, shrubs, plants, or grasses that may tend to—
 - (i) protect the habitat of any absolutely protected wildlife or game as defined for the time being in the Wildlife Act 1953; or

- (ii) mitigate soil erosion, or promote soil and water conservation or the control of floods; or
 - (c) entry onto the land is necessary for the purpose of achieving concerted action against any wild animals,—
- the Director-General may request the owner or occupier or person in control of the land to allow entry onto the land for the purposes of this Act.
- (2) Where the owner or occupier or person in control of the land has refused a written request from the Director-General for entry onto the land, the Minister may authorise in writing the Director-General or any other officer or employee or agent or contractor of the Department to enter at any time and from time to time on any land vested in or administered by the Crown, or on any other land, with such assistants as he thinks fit, for all or any of the following purposes:
- (a) to investigate the incidence on the land of wild animals and to make studies or other investigations of any such wild animals:
 - (b) to catch alive or to hunt or kill or (subject to the Pesticides (Vertebrate Pest Control) Regulations 1983 and any other enactment relating to the use of poisons) poison any such wild animals:
 - (c) to erect and maintain tents on the land, and to provide all necessary services, conveniences, and amenities and, with the agreement of the occupier, owner, or authority in control of the land, erect such huts and other structures and develop such tracks and other works as are necessary for the success of the wild animal control operation:

provided that, where there is any loss of pasture, farm production, or income other than that derived from the hunting or sale of wild animals as a consequence of any such structures or works on the land, the Minister may, on the production of evidence to his satisfaction of such loss, pay such compensation as he considers fair and reasonable:
 - (d) to erect notices or publish or broadcast information advising or warning of any action being taken under this Act:

for a review of the matter may be lodged with the Minister within 21 days of the giving of the notice, and that the Minister's decision regarding any appeal shall be final.

- (4) Where any Crown-owned land or any national park land or maritime park land or any defence area is concerned, the Director-General shall ensure that there is prior consultation with the land controlling authority, and shall include in the authority to enter onto the land issued to any officer, employee, agent, or contractor of the Department such conditions of entry and use of the land as may be laid down by the controlling authority and agreed to by the Director-General.
- (5) Where any hut, track, aerodrome, or other structure is intended to be erected or developed on any national park land or maritime park land or any defence area, and the Director-General and the appropriate board or Minister cannot agree regarding the structure or work, the matter shall be referred to the Minister for decision in consultation with the appropriate Minister.
- (6) Subject to prior consultation with the occupier or the land controlling authority, and having satisfied himself that the authorisation that he intends to grant does not conflict with any Act or bylaw relating to the Crown-owned land to which the said authorisation is to apply, and in the case of any other land that the authorisation that he intends to grant has been discussed with the occupier and will not unduly affect farm management or cause the occupier undue hardship, the Director-General may authorise any person entering on any land pursuant to subsection (1) to bring with him any vehicle, vessel, aircraft, machine, horse, or dog, and any equipment necessary for any of the purposes specified in that subsection, and to convey any necessary supplies or equipment onto or over that land.
- (7) Every person commits an offence against this Act, who, not being duly authorised, takes away or is found in possession of, or occupies or fails to vacate, or removes, destroys, or displaces, or moves the position of, any tent or other structure, or any services or conveniences, or any vehicle, vessel, or aircraft, or any amenity or notice erected or provided on any land pursuant to this section, or wilfully removes or injures or damages in any way any vessel, aircraft, vehicle, animal, equipment, or supplies brought onto or used on or present on any land pursuant to this section.
