- (5) The rest of this Act comes into force on the day that is 1 year after the date on which this Act receives the Royal assent.

3 Purpose of Act

- (1) The principal purpose of this Act is to protect the health and safety of members of the public by providing for mechanisms to ensure that health practitioners are competent and fit to practise their professions.
- (2) This Act seeks to attain its principal purpose by providing, among other things,—
 - (a) for a consistent accountability regime for all health professions; and
 - (b) for the determination for each health practitioner of the scope of practice within which he or she is competent to practise; and
 - (c) for systems to ensure that no health practitioner practises in that capacity outside his or her scope of practice; and
 - (d) for power to restrict specified activities to particular classes of health practitioner to protect members of the public from the risk of serious or permanent harm; and
 - (e) for certain protections for health practitioners who take part in protected quality assurance activities; and
 - (f) for additional health professions to become subject to this Act.

4 Outline

- (1) Part 1 is concerned with preliminary matters, such as the definitions of terms used in the Act. It also contains certain key provisions. These include provisions that—
 - (a) prohibit persons who are not qualified to be registered as health practitioners of a profession from claiming or implying to be health practitioners of that profession:

- (b) prohibit persons other than registered health practitioners of a profession with current practising certificates from claiming to be practising the profession:
 - (c) prohibit health practitioners from practising their professions without current practising certificates or from practising their professions outside their scopes of practice:
 - (d) authorise the making of Orders in Council restricting the provision of the whole or part of certain health services to health practitioners who are permitted to perform those activities by their scopes of practice.
- (2) Part 2 sets out the conditions that a health professional must meet in order to practise as a health practitioner under this Act. The Part includes provisions that—
- (a) require every health practitioner to be registered for a scope of practice:
 - (b) require applicants for registration—
 - (i) to have the qualifications prescribed by the responsible authority for the applicant’s intended scope of practice; and
 - (ii) to be competent to practise within that scope of practice; and
 - (iii) to be fit for registration, which includes the ability to communicate effectively for the purposes of practising within that scope of practice:
 - (c) stop a health practitioner from practising without a current practising certificate:
 - (d) stop the authority, in the case of applications for practising certificates, from approving those applications unless the authority is satisfied that the health practitioners concerned are competent to practise in accordance with their scopes of practice.
- (3) Part 3 provides mechanisms for improving the competence of health practitioners and for protecting the public from health practitioners who practise below the required standard of competence or who are unable to perform the required functions. These mechanisms include competence reviews, competence programmes, recertification programmes, medical examinations, and protected quality assurance activities. The Part also contains provisions that—
- (a) allow health practitioners to notify the responsible authority if they have reason to believe that another health practitioner may pose a risk of harm to the public by practising below the required standard of competence:
 - (b) enable the responsible authority to order the interim suspension of a health practitioner’s practising certificate if there are reasonable grounds for believing that the practitioner poses a risk of serious harm to the public by practising below the required standard of competence:

- (c) enable the responsible authority to order the suspension of a health practitioner if the authority is satisfied that the practitioner is unable to perform the functions required for the practice of his or her profession because of some mental or physical condition or if the practitioner has not complied with a requirement for a medical examination:
 - (d) enable the Minister to confer protection on quality assurance activities conducted to improve the practices or competence of health practitioners and so protect the confidentiality of information that becomes known solely as a result of those activities and give those engaged in those activities immunity from civil liability.
- (4) Part 4 provides for the establishment by each authority of professional conduct committees to investigate complaints referred to the authority by the Health and Disability Commissioner. Professional conduct committees are also required to investigate the circumstances of certain offences committed by health practitioners. The Part also establishes a single tribunal, called the Health Practitioners Disciplinary Tribunal, to hear and determine charges brought against practitioners by the Director of Proceedings or by a professional conduct committee.
- (5) Part 5 provides for appeals to the District Court against the decisions of an authority, and for appeals to the High Court against decisions of the Health Practitioners Disciplinary Tribunal.
- (6) Part 6 continues certain registration authorities as authorities under the Act. It also establishes the Midwifery Council, the Osteopathic Council, and the Pharmacy Council. The Part also contains provisions that—
 - (a) enable additional health professions to be designated under the Act and authorities to be appointed for such additional professions:
 - (b) set out the functions of authorities. These include—
 - (i) prescribing the qualifications required for scopes of practice:
 - (ii) authorising the registration of health practitioners:
 - (iii) reviewing and maintaining the competence of health practitioners:
 - (iv) setting standards of clinical competence, cultural competence, and ethical conduct:
 - (v) setting programmes to ensure the ongoing competence of health practitioners:
 - (c) provide for the membership of authorities:
 - (d) confer certain powers on the Minister in relation to authorities:
 - (e) require authorities to maintain public registers of health practitioners.
- (7) Part 7 contains (in subpart 1) miscellaneous provisions, including provisions of general application (such as, for example, a provision on the way notice is to be given under the Act), consequential amendments, repeals, savings, and (in sub-

part 2) transitional provisions, including provisions for the continued recognition of the registration of health practitioners who were, immediately before the expiry of 1 year beginning on the date on which this Act received the Royal assent, registered under a health-registration statute.

- (8) This section is only a guide to the general scheme of this Act.

Part 2

Registration of, and practising certificates for, health practitioners

Prescribed scopes of practice, qualifications, and experience

11 Authorities must specify scopes of practice

- (1) Each authority appointed in respect of a profession must, by notice published in the *Gazette*, describe the contents of the profession in terms of 1 or more scopes of practice.
- (2) A scope of practice may be described in any way the authority thinks fit, including, without limitation, in any 1 or more of the following ways:
 - (a) by reference to a name or form of words that is commonly understood by persons who work in the health sector:
 - (b) by reference to an area of science or learning:
 - (c) by reference to tasks commonly performed:
 - (d) by reference to illnesses or conditions to be diagnosed, treated, or managed.

12 Qualifications must be prescribed

- (1) Each authority must, by notice published in the *Gazette*, prescribe the qualification or qualifications for every scope of practice that the authority describes under section 11.
- (2) In prescribing qualifications under subsection (1), an authority may designate 1 or more of the following as qualifications for any scope of practice that the authority describes under section 11:
 - (a) a degree or diploma of a stated kind from an educational institution accredited by the authority, whether in New Zealand or abroad, or an educational institution of a stated class, whether in New Zealand or abroad:
 - (b) the successful completion of a degree, course of studies, or programme accredited by the authority:
 - (c) a pass in a specified examination or any other assessment set by the authority or by another organisation approved by the authority:
 - (d) registration with an overseas organisation that performs functions that correspond wholly or partly to those performed by the authority:
 - (e) experience in the provision of health services of a particular kind, including, without limitation, the provision of such services at a nominated institution or class of institution, or under the supervision or oversight of a nominated health practitioner or class of health practitioner.

- (3) A notice under subsection (1) may state that 1 or more qualifications or experience of 1 or more kinds, or both, is required for each scope of practice that the authority describes under section 11.
- (4) An authority must monitor every New Zealand educational institution that it accredits for the purpose of subsection (2)(a), and may monitor any overseas educational institution that it accredits for that purpose.
- (5) An authority may, at any time, give notice to an educational institution accredited under subsection (2)(a) that the institution's accreditation is revoked.
- (6) The revocation of an educational institution's accreditation does not affect the registration of a health practitioner who qualified to practise within a scope of practice on the basis of having a degree or diploma from that institution.

Section 12(5): inserted, on 12 April 2019, by section 6 of the Health Practitioners Competence Assurance Amendment Act 2019 (2019 No 11).

Section 12(6): inserted, on 12 April 2019, by section 6 of the Health Practitioners Competence Assurance Amendment Act 2019 (2019 No 11).

13 Principles guiding the prescribing of qualifications

In prescribing qualifications under section 12, each authority must be guided by the following principles:

- (a) the qualifications must be necessary to protect members of the public; and
- (b) the qualifications may not unnecessarily restrict the registration of persons as health practitioners; and
- (c) the qualifications may not impose undue costs on health practitioners or on the public.

14 Provisions relating to notices under sections 11 and 12

- (1) An authority may at any time, by notice in the *Gazette*, amend, revoke, or replace a notice under section 11 or section 12.
- (1A) The amendment, revocation, or replacement of a notice published under section 12 does not affect the registration of a health practitioner who qualified to practise within a scope of practice on the basis of having had a prescribed qualification for that scope of practice under the notice before the notice was amended, revoked, or replaced.
- (2) Before an authority publishes a notice under section 11 or section 12 or under this section, the authority must have consulted about its proposal for the contents of the notice—
 - (a) with persons who the authority considers are able to represent the views of health practitioners, or of classes of health practitioner, registered with the authority; and
 - (b) with organisations—
 - (i) that the authority considers will be affected by the proposal; or

- (ii) whose members the authority considers will be affected by the proposal.
- (3) Each authority must ensure that an up-to-date version of each notice that the authority has published under section 11 or section 12 is—
 - (a) available on the Internet; and
 - (b) available at the office of the authority during business hours, so that members of the public may—
 - (i) inspect the notice free of charge; or
 - (ii) obtain a photocopy of the notice for a reasonable fee.
- (4) A notice published under section 11 or 12 is a disallowable instrument, but not a legislative instrument, for the purposes of the Legislation Act 2012 and must be presented to the House of Representatives under section 41 of that Act.
- (5) Before the commencement of section 114(1), this section and sections 11 to 13 apply to each body that is referred to in column 1 of Schedule 2 as if it were already appointed as an authority under this Act in respect of the profession specified opposite to it in column 2 of that schedule.

Section 14(1A): inserted, on 12 April 2019, by section 7 of the Health Practitioners Competence Assurance Amendment Act 2019 (2019 No 11).

Section 14(4): replaced, on 5 August 2013, by section 77(3) of the Legislation Act 2012 (2012 No 119).

Registration of practitioners and authorisations of scopes of practice

15 Requirements for registration of practitioners

 - (b) has the qualifications that are prescribed, under section 12, for that scope of practice; and
 - (c) is competent to practise within that scope of practice.

- (3) An authority may vary a prescribed qualification in any case where the authority—
 - (a) proposes to limit the health services that the applicant will be permitted to perform; and
 - (b) is satisfied that the varied qualification is adequate—

- (ii) for the protection of the public.

16 Fitness for registration

No applicant for registration may be registered as a health practitioner of a health profession if—

- (b) he or she does not satisfy the responsible authority that his or her ability to communicate in and comprehend English is sufficient to protect the health and safety of the public; or
- (c) he or she has been convicted by any court in New Zealand or elsewhere of any offence punishable by imprisonment for a term of 3 months or longer, and he or she does not satisfy the responsible authority that, having regard to all the circumstances, including the time that has elapsed since the conviction, the offence does not reflect adversely on his or her fitness to practise as a health practitioner of that profession; or
- (d) the responsible authority is satisfied that the applicant is unable to perform the functions required for the practice of that profession because of some mental or physical condition; or
- (e) he or she is the subject of professional disciplinary proceedings in New Zealand or in another country, and the responsible authority believes on reasonable grounds that those proceedings reflect adversely on his or her fitness to practise as a health practitioner of that profession; or
- (f) he or she is under investigation, in New Zealand or in another country, in respect of any matter that may be the subject of professional disciplinary proceedings, and the responsible authority believes on reasonable grounds that that investigation reflects adversely on his or her fitness to practise as a health practitioner of that profession; or
- (g) he or she—
 - (i) is subject to an order of a professional disciplinary tribunal (whether in New Zealand or in another country) or to an order of an educational institution accredited under section 12(2)(a) or to an order of an authority or of a similar body in another country; and
 - (ii) does not satisfy the responsible authority that that order does not reflect adversely on his or her fitness to practise as a health practitioner of that profession; or

- (h) the responsible authority has reason to believe that the applicant may endanger the health or safety of members of the public.

Competence, fitness to practise, and quality assurance

34 Notification that practice below required standard of competence

- (1) If a health practitioner (**health practitioner A**) has reason to believe that another health practitioner (**health practitioner B**) may pose a risk of harm to the public by practising below the required standard of competence, health practitioner A may give the Registrar of the authority that health practitioner B is registered with written notice of the reasons on which that belief is based.
- (2) If a person holding office as Health and Disability Commissioner or as Director of Proceedings under the Health and Disability Commissioner Act 1994 has reason to believe that a health practitioner may pose a risk of harm to the public by practising below the required standard of competence, the person must promptly give the Registrar of the responsible authority written notice of the circumstances on which that belief is based.

- (3) Whenever an employee employed as a health practitioner resigns or is dismissed from his or her employment for reasons relating to competence, the person who employed the employee immediately before that resignation or dismissal must promptly give the Registrar of the responsible authority written notice of the reasons for that resignation or dismissal.
- (4) No civil or disciplinary proceedings lie against any person in respect of a notice given under this section by that person, unless the person has acted in bad faith.

- (3) If, after giving notice under this section in respect of a health practitioner, the authority forms the view that the practice of the health practitioner never posed, or no longer poses, a risk of harm to the public, the authority must promptly notify every recipient of the notice under this section of the current position in respect of the health practitioner.
- (4) Promptly after giving a notice under this section about a health practitioner, the Registrar of the authority must give a copy of the notice to the practitioner.

36 When authority may review health practitioner's competence

- (5) In conducting a review under this section, the authority must consider whether, in the authority’s opinion, the health practitioner’s practice of the profession meets the required standard of competence.

- (3) Subsection (1)(b) is subject to section 154.

38 Orders concerning competence

- (1) If, after conducting a review under section 36, the authority has reason to believe that a health practitioner fails to meet the required standard of competence, the authority must make 1 or more of the following orders:

- (2) If the authority is unable to conduct or complete a review of a health practitioner under section 36 because of the health practitioner's failure to respond adequately to a notice under section 37, the authority has, for the purposes of subsection (1), reason to believe that the health practitioner fails to meet the required standard of competence.
- (3) If an order is made under this section following receipt of a notice given under section 34(1) or (2), the Registrar of the authority must, as soon as practicable after the making of the order, inform the person from whom the notice was received that an order under subsection (1)(a), (b), (c), or (d), as the case may be, has been made.

Section 39(4): replaced, on 12 April 2019, by section 14 of the Health Practitioners Competence Assurance Amendment Act 2019 (2019 No 11).

40 Competence programmes

- (1) For the purpose of maintaining, examining, or improving the competence of health practitioners to practise the profession in respect of which an authority is appointed, the authority may from time to time set or recognise competence programmes in respect of health practitioners who hold or apply for practising certificates.
- (2) Any competence programme may be made to apply generally in respect of all such health practitioners, or in respect of a specified health practitioner, or in respect of any specified class or classes of such health practitioners.

 - (a) pass any examinations or assessments, or both:
 - (b) complete a period of practical training:
 - (c) complete a period of practical experience:
 - (d) undertake a course of instruction:
 - (e) permit another health practitioner specified by the authority to examine the clinical records of the health practitioner in relation to his or her clients:
 - (f) undertake a period of supervised practice.
- (4) The authority may specify a period within which the health practitioners to which a competence programme applies must comply with the requirements of the programme.
- (5) The authority may exempt any health practitioner or class of health practitioner from all or any of the requirements of a competence programme.

- (6) Within 20 working days after a competence programme is set or recognised by the authority, the Registrar must notify every health practitioner who is required to undertake the programme of that fact and of the details of the programme.

Compare: 1995 No 95 s 62

41 Recertification programmes

- (1) For the purpose of ensuring that health practitioners are competent to practise within the scopes of practice in respect of which they are registered, each authority may from time to time set or recognise recertification programmes for practitioners who are registered with the authority.
- (2) A recertification programme may be made to apply generally in respect of all health practitioners, or in respect of a specified health practitioner, or in respect of a specified class or classes of health practitioner.
- (3) A recertification programme may require a practitioner to do any 1 or more of the following at intervals (if any) prescribed in the programme:
- (a) pass any examinations or assessments, or both:
 - (b) complete a period of practical training:
 - (c) undertake a course of instruction:
 - (d) permit a health practitioner specified by the authority to examine—
 - (i) any or all of his or her clinical and other practices:
 - (ii) any or all of his or her relations with other health practitioners:
 - (iii) any or all of the clinical records of the practitioner in relation to his or her patients or clients:
 - (e) undergo an inspection:
 - (f) adopt and undertake a systematic process for ensuring that the services provided by the practitioner meet the required standard of competence.
- (4) Every recertification programme must allow a reasonable time for a practitioner to whom it relates to comply with its requirements.
- (5) The authority may exempt any health practitioner or class of health practitioner from all or any of the requirements of a recertification programme.
- (6) Within 20 working days after a recertification programme is set or recognised by the authority, the Registrar must notify every health practitioner who is required to undertake the programme of that fact and of the details of the programme.

42 Health practitioners may be required to make records available

An authority that is reviewing the competence of a health practitioner or that has set a competence programme or recertification programme for a health

practitioner may, for the purposes of the review or programme, inspect all or any of the clinical records of the health practitioner, and that health practitioner must make those records available for those purposes to any person duly authorised by the authority.

 - (i) by changing any health services that the practitioner is permitted to perform; or
 - (ii) by including any condition or conditions that the authority considers appropriate:

- (3) The notice under subsection (2)(a)(i) must contain sufficient detail to inform the person clearly of the particular grounds for the proposal to make the order.
- (4) Any order made under subsection (1) remains in effect until the health practitioner concerned has satisfied all the requirements of the competence programme or, as the case requires, the recertification programme, and for that purpose the authority may, on the application of the practitioner, extend the period within which the practitioner is required to satisfy those requirements.
- (5) The failure of a health practitioner to satisfy the requirements of any competence programme or recertification programme that applies to the health practitioner is not, of itself, a ground for taking disciplinary action under Part 4 against that health practitioner.
- (6) Subsection (2)(b) is subject to section 154.
