When this section applies

- (1) This section applies for the purposes of calculating the income tax liability under section BC 7 (Income tax liability of person with schedular income) of a natural person who is an investor in a multi-rate PIE to determine whether an adjustment must be made to the person’s terminal tax for an amount of PIE schedular income derived for a tax year.

Calculating adjustments

- (2) The adjustment for the amount of PIE schedular income referred to in the definition of **schedular income**, paragraph (dc), is equal to the amount calculated using the formula—

$$(\text{amount of PIE income} \times \text{investor's PIR}) - (\text{credits used} + \text{amount of tax credit}).$$

Definition of items in formula

- (3) In the formula,—
- (a) **amount of PIE income** is the amount of the investor's attributed PIE income for the tax year:
 - (b) **investor's PIR** is the investor's prescribed investor rate applying for the tax year under schedule 6, clause 1 (Prescribed rates: PIE investments and retirement scheme contributions):

Positive adjustment

Negative adjustment

- (5) If the result of the calculation in subsection (3) is negative,—
- (a) the amount of the adjustment is first applied to reduce the terminal tax payable by the person for the tax year:
 - (b) any amount of adjustment remaining is refundable under sections RB 4, RM 2 to 8, and RM 10 (which relate to refunds and their use), as applicable:
 - (c) the investor's schedular income tax liability for the tax year under section BC 7(5) is zero.

Meaning of PIE schedular income

- (6) For the purposes of this section, and sections CX 56 and HM 6, and the definition of **residual income tax**, **PIE schedular income** means an amount of attributed PIE income that a natural person who is an investor in a multi-rate PIE derives under section CP 1 (Attributed income of investors in multi-rate PIEs) to which the prescribed rates of tax set out in schedule 6, clause 1 (Prescribed rates: PIE investments and retirement scheme contributions) apply.

150 Section HM 56 amended (Prescribed investor rates: schedular rates)

After section HM 56(2), insert:

Increased assessment of trustee arising from election

- (3) In the determination of a trustee's prescribed investor rate under subsection (1), the amount of the trustee's assessed taxable income for an income year is treated as not including the amount of an increase in the assessed taxable income that results from an election under section HC 33 (Choosing to satisfy income tax liability of trustee), if the election is made after the beginning of the income year and has an effective date that is or precedes the beginning of the income year.

- (a) the Commissioner—
 - (i) considers that the investor’s notified investor rate is inconsistent with the investor’s prescribed investor rate; and
 - (ii) holds information about the investor that is sufficient to enable the Commissioner to determine the appropriate rate for the investor:
- (b) the investor does not have a notified investor rate.

Application of rate

- (2) For the purposes of section HM 60(3), as soon as reasonably practicable after having been notified of the rate provided by the Commissioner, the PIE must apply the rate provided by the Commissioner as if it were the most recent notified investor rate.

Subsequent notification of rate by investor

- (3) Despite subsection (2), if the Commissioner provides a tax rate for an investor to the PIE under subsection (1), and the investor subsequently notifies the PIE under section HM 60(1) of a different investor rate, the PIE must apply the rate notified by the investor.
