Regulations

- 1 Title**
These regulations are the Medicines (Designated Prescriber: Nurse Practitioners) Regulations 2005.
- 2 Commencement**
These regulations come into force on 1 November 2005.
- 3 Purpose of these regulations**
The purpose of these regulations is to—
- (a) authorise nurse practitioners who meet specified requirements for competency, qualifications, and training to prescribe certain prescription medicines; and
 - (b) specify, and provide for the specification of, the requirements; and

- (c) prohibit nurse practitioners who fail to comply with the requirements from prescribing the medicines; and
- (d) make contraventions of that prohibition an offence.

4 Interpretation

In these regulations, unless the context otherwise requires,—

Act means the Medicines Act 1981

nurse practitioner means, in so far as he or she is practising the profession of nursing, a health practitioner who—

- (a) is, or is deemed to be, registered with the Nursing Council as a practitioner of the profession of nursing (whether or not he or she is, or is deemed to be, registered with another authority established or continued by the Health Practitioners Competence Assurance Act 2003 as a practitioner of, and is practising, another health profession); and
- (b) is permitted to practise within the scope of practice for a nurse practitioner

nurse practitioner medicine—

- (a) means a substance listed in the Schedule and that is declared to be a prescription medicine by regulations under the Act or by a notice given under section 106 of the Act; but
- (b) if the substance is declared to be a prescription medicine only in 1 or more specified forms or only for 1 or more specified purposes, does not include the substance in other forms or for other purposes

Nursing Council means the Nursing Council of New Zealand continued by section 114(1)(a) of the Health Practitioners Competence Assurance Act 2003.

5 Authority to prescribe nurse practitioner medicines

A nurse practitioner may prescribe a nurse practitioner medicine if he or she meets—

- (a) the requirements in regulation 6 for commencing for the first time to prescribe the medicine; and
- (b) the additional requirements in regulations 7 and 8 (if relevant) for prescribing the medicine.

- 6 Requirements for commencing for first time to prescribe**
Before commencing for the first time to prescribe a nurse practitioner medicine, a nurse practitioner must have—
- (a) obtained a nurse practitioner prescribing qualification that is specified for the purposes of this paragraph by the Nursing Council by notice in the *Gazette*; and
 - (b) undertaken the training (if any) that is specified for the purposes of this paragraph by the Nursing Council by notice in the *Gazette*; and
 - (c) demonstrated, to the satisfaction of the Nursing Council, that he or she is sufficiently knowledgeable to safely prescribe all nurse practitioner medicines.
- 7 Other training to be undertaken**
To prescribe a nurse practitioner medicine, a nurse practitioner must have—
- (a) undertaken successfully the training (if any) that is specified for the purposes of this regulation by the Nursing Council by notice in the *Gazette*; and
 - (b) done so within the periods, or at the times, specified for the purpose in the notice, if the training is of an ongoing nature.
- 8 Assessments of competence to be completed**
To prescribe a nurse practitioner medicine, a nurse practitioner must have—
- (a) completed successfully the assessment (if any) of competence to prescribe the medicine that is specified for the purposes of this regulation by the Nursing Council by notice in the *Gazette*; and
 - (b) done so within the periods, or at the times, specified for the purpose in the notice, if the assessment is to be completed at regular intervals.
- 9 Gazette notices**
- (1) For the purposes of these regulations, a notice in the *Gazette*—
 - (a) comes into force on the 28th day after the date of publication or on a later date specified for the purpose in the notice; and

- (b) may provide that it expires, if not sooner revoked, with the close of a specified day.
- (2) Within 5 working days after the date of publication of a notice in the *Gazette* for the purposes of these regulations, and while the notice remains in force, the Nursing Council must ensure that an up-to-date version of the notice is—
 - (a) available on the Internet; and
 - (b) available at the office of the Nursing Council during business hours, so that members of the public may—
 - (i) inspect the notice free of charge; or
 - (ii) obtain a photocopy of the notice for a reasonable fee.

10 Prohibition on prescribing without meeting requirement

- (1) A nurse practitioner must not prescribe a nurse practitioner medicine unless he or she—
 - (a) complies with the requirements in regulations 6, 7, and 8; or
 - (b) prescribes that medicine under and in accordance with another enactment.
- (2) A person commits an offence if he or she contravenes or fails to comply with subclause (1).
- (3) The offence is punishable on summary conviction by a fine not exceeding \$500.

Regulation 10(1): substituted, on 25 March 2011, by regulation 11 of the Medicines (Designated Prescriber—Registered Nurses Practising in Diabetes Health) Regulations 2011 (SR 2011/54).

11 Conditions under which authorised prescribers and veterinary surgeons may prescribe prescription medicines *Amendment(s) incorporated in the regulations.*

12 Consequential amendment and revocations

- (1) The Medicines (Designated Prescriber: Nurses Practising in Aged Care and Child Family Health) Regulations 2001 (SR 2001/230) are consequentially revoked.
- (2) *Amendment(s) incorporated in the regulations.*

13 Saving for existing designated prescriber nurses

- (1) An existing designated prescriber nurse must, during the 3 years beginning with 1 November 2005, and despite the revocations effected by regulation 12, be treated as authorised by the former regulations to prescribe a specified prescription medicine if the nurse meets the requirements in the former regulations, and those imposed by the Nursing Council under those regulations before their revocation,—
- (a) for commencing for the first time to prescribe the medicine; and
 - (b) (if relevant) for prescribing the medicine.
- (2) In this regulation,—
- existing designated prescriber nurse** means a person who, immediately before 1 November 2005, was authorised by the former regulations to prescribe a specified prescription medicine
- former regulations** means the regulations revoked by regulation 12(1)
- specified prescription medicine** means a prescription medicine specified in Part 1A or Part 1B of Schedule 1 of the Medicines Regulations 1984 (as those Parts existed immediately before 1 November 2005).
- (3) Nothing in this regulation prevents an existing designated prescriber nurse from becoming, during the period specified in subclause (1), a nurse practitioner authorised by these regulations to prescribe a nurse practitioner medicine.

Notes

1 *General*

This is a reprint of the Medicines (Designated Prescriber: Nurse Practitioners) Regulations 2005. The reprint incorporates all the amendments to the regulations as at 25 March 2011, as specified in the list of amendments at the end of these notes.

Relevant provisions of any amending enactments that contain transitional, savings, or application provisions that cannot be compiled in the reprint are also included, after the principal enactment, in chronological order. For more information, see <http://www.pco.parliament.govt.nz/reprints/>.

2 *Status of reprints*

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 *How reprints are prepared*

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not

included in Acts, and provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, see <http://www.pco.parliament.govt.nz/editorial-conventions/> or Part 8 of the *Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force*.

4 Changes made under section 17C of the Acts and Regulations Publication Act 1989

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)

- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)
- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
