Regulations

1 Title

These regulations are the Resource Management (Exemption) Regulations 2017.

2 Commencement

These regulations come into force on 1 April 2017.

3 Interpretation

In these regulations, unless the context otherwise requires,—

Act means the Resource Management Act 1991

brodifacoum means—

- (a) brodifacoum by itself; or
- (b) a formulation, product, bait, or delivery system that contains brodifacoum

introduced fish means any fish that is not native to New Zealand and its waters

operator means the person who discharges the relevant VTA, pre-feed, or repellent

pre-feed means food used to attract or accustom a vertebrate pest or an introduced fish to a bait or delivery system before a VTA is used in the bait or delivery system

relevant Fish and Game Council means the Fish and Game Council (as defined by section 2(1) of the Conservation Act 1987) for a region in which the relevant rotenone is discharged

relevant regional council means the regional council for a region in which the relevant VTA, pre-feed, or repellent is discharged

repellent means a substance used to deter vertebrates that are not pests or introduced fish from touching or eating a VTA or any pre-feed

rotenone means—

- (a) rotenone by itself; or
- (b) a formulation, product, bait, or delivery system that contains rotenone

sodium fluoroacetate means—

- (a) sodium fluoroacetate by itself; or
- (b) a formulation, product, bait, or delivery system that contains sodium fluoroacetate

VTA means each of the following vertebrate toxic agents: brodifacoum, rotenone, and sodium fluoroacetate.

4 Transitional, savings, and related provisions

The transitional, savings, and related provisions (if any) set out in Schedule 1 have effect according to their terms.

5 Exemption for brodifacoum

The discharge of brodifacoum is exempt from section 15 of the Act if—

- (a) the discharge is for the purpose of killing vertebrate pests; and
- (b) the discharge is into or onto any of the following land, or into any water or air above, on, or in that land:
 - (i) land protected by predator-proof fencing;
 - (ii) an island of New Zealand other than the North Island or South Island; and
- (c) the operator complies with the conditions in Schedule 2.

Regulation 5(b): amended, on 2 June 2017, by regulation 4(1) of the Resource Management (Exemption) Regulations 2017 Amendment Regulations 2017 (LI 2017/111).

Regulation 5(b)(i): amended, on 2 June 2017, by regulation 4(2) of the Resource Management (Exemption) Regulations 2017 Amendment Regulations 2017 (LI 2017/111).

6 Exemption for rotenone

The discharge of rotenone is exempt from section 15 of the Act if—

- (a) the discharge is for the purpose of killing introduced fish; and
- (b) the discharge is into a water body whose surface, during the discharge,—
 - (i) is less than 1 hectare in area; and
 - (ii) is not connected to a river or an artificial watercourse; and
- (c) the operator is, or is acting for, the Department of Conservation or the Ministry for Primary Industries; and
- (d) the operator has first consulted the relevant Fish and Game Council about the discharge; and
- (e) the operator complies with the conditions in Schedule 2.

7 Exemption for sodium fluoroacetate

The discharge of sodium fluoroacetate is exempt from section 15 of the Act if—

- (a) the discharge is for the purpose of killing vertebrate pests; and

(b) the operator complies with the conditions in Schedule 2.

8 Exemption for pre-feed

The discharge of any pre-feed is exempt from section 15 of the Act if the operator complies with the conditions in Schedule 2.

9 Exemption for repellent

The discharge of a repellent is exempt from section 15 of the Act if the operator complies with the conditions in Schedule 2.

Schedule 1 Transitional, savings, and related provisions
