Provisions relating to dairy processors

7 Provisions relating to large processors

(1) After the end of each financial year, the Director-General may determine—

(a) each large processor's milksolids collection for the previous financial year; and

(b) the total milksolids collected for the previous financial year from large processors.

(2) The Director-General may then invoice each processor for the levy, indicating the processor's milksolids collection for the previous financial year and the total milksolids collected from large processors in the previous financial year.

(c) a person becomes a dairy processor of dairy material that is not RCS raw milk.

(2) A processor to whom this regulation applies must pay the levy for a small or large processor, as the case may be, until the Director-General next determines each large processor's milksolids collection for the previous financial year and the total milksolids collected for the previous financial year from large processors.

(5) If the ownership of a large processor changes, the new owner is liable to pay the processor's levy.

(6) If a large processor ceases to be a collection agent during any year, the processor is liable to pay the levy for the period in that year up to and including the quarter in which the processor ceases to be a collection agent.

(a) data for the volume of milksolids collection of individual businesses for the previous financial year (by month, if available); and

(b) the identity of the individual businesses.

(2) A non-cow dairy processor who falls within the definition of a large processor must provide the Director-General with the processor's annual milksolids collection data for the previous financial year by the end of August in each year.

(a) each large exporter's export mass of dairy products for the previous financial year; and

(a) a small exporter's export mass of dairy products makes the exporter a large exporter; or

(b) a large exporter's export mass of dairy products makes the exporter a small exporter; or

(c) an exporter enters the market.

(2) An exporter to whom this regulation applies must pay the levy for a small or large exporter, as the case may be, until the Director-General next determines each large exporter's export mass of dairy products for the previous financial year and the total dairy export mass from large exporters for the previous financial year.

(3) For the purposes of subclause (2),—

(4) If the Director-General has some but not full export mass of dairy products data for the previous financial year, the Director-General may estimate the exporter's full-year export mass of dairy products data by interpolating the exporter's monthly data from the previous financial year.

(5) If the ownership of a large exporter changes, the new owner is liable to pay the exporter's levy.

(6) If a large exporter ceases to be an exporter during any year, the exporter is liable to pay the levy for the period in that year up to and including the quarter in which the exporter ceases to be an exporter.

14 Levy payable by new entrants

(1) If a person becomes a registered exporter during a financial year, the exporter is liable to pay a proportionate share of the annual levy that includes payment for the quarter of the financial year in which the registration is approved.
