Dated at Wellington this 22nd day of October 2021.

Hon Chris Hipkins,
Minister for COVID-19 Response.

Explanatory note

This note is not part of the order, but is intended to indicate its general effect.

This order, which comes into force at 11.59 pm on 25 October 2021, amends the COVID-19 Public Health Response (Vaccinations) Order 2021 (the **principal order**), which requires persons belonging to specified groups (**affected persons**) who carry out certain work to be vaccinated.

The effect of the amendments is to extend that requirement to apply to 3 additional groups of affected persons.

Affected persons working in health and disability sector

The first additional group of affected persons are the following workers in the health and disability sector:

- health practitioners;
- workers who work in close proximity to health practitioners providing health services to members of the public;
- workers employed or engaged by certified providers (which includes workers at a facility providing hospital care, rest home care, residential disability care, or fertility services);
- care and support workers.

An affected person who belongs to this group is treated as vaccinated under the principal order—

- until 15 November 2021 if they have their first dose of a COVID-19 vaccine before the close of that date; and

- until 1 January 2022 (and after that date) if they have their first dose of a COVID-19 vaccine before the close of 15 November 2021 and have their second dose of a COVID-19 vaccine before the close of 1 January 2022.

However, an affected person who belongs to this group and who is not vaccinated before the commencement of this order (**commencement**) and does not receive their first dose of a COVID-19 vaccine before the close of 15 November 2021 is treated as vaccinated on the date on which they have their first dose of a COVID-19 vaccine and then from that date until 1 January 2022 (and after 1 January 2022) if they have their second dose of a COVID-19 vaccine before the close of 1 January 2022.

Affected persons working in prisons

The second additional group of affected persons are workers who are staff members of a prison and who may be required to undergo a security screening process before being allowed entry into the prison.

An affected person who belongs to this group is treated as vaccinated under the principal order—

- until 6 November 2021 if they have their first dose of a COVID-19 vaccine before the close of that date:
- until 8 December 2021 (and after that date) if they have their first dose of a COVID-19 vaccine before the close of 6 November 2021 and have their second dose of a COVID-19 vaccine before the close of 8 December 2021.

However, an affected person who is not vaccinated before commencement and does not receive their first dose of a COVID-19 vaccine before the close of 6 November 2021 is treated as vaccinated on the date on which they have their first dose of a COVID-19 vaccine and then from that date until 8 December 2021 (and after 8 December 2021) if they have their second dose of a COVID-19 vaccine before the close of 8 December 2021.

Affected persons in affected education services

The third additional group of affected persons are the following persons in affected education services:

- workers over the age of 12 years who carry out work at or for an affected education service (including as a volunteer or an unpaid worker) and who may have contact with children or students in the course of carrying out that work or who will be present at the affected education service at a time when children or students are also present:
- providers of a home-based education and care service.

The affected education services to which the vaccination requirement applies are early childhood services (other than playgroups), registered schools, and hostels.

An affected person who belongs to this group is treated as vaccinated under the principal order—

- until 15 November 2021 if they have their first dose of a COVID-19 vaccine before the close of that date;
- until 1 January 2022 (and after that date) if they have their first dose of a COVID-19 vaccine before the close of 15 November 2021 and have their second dose of a COVID-19 vaccine before the close of 1 January 2022.

However, an affected person who is not vaccinated before commencement and does not receive their first dose of a COVID-19 vaccine before the close of 15 November 2021 is treated as vaccinated on the date on which they have their first dose of a COVID-19 vaccine and then from that date until 1 January 2022 (and after 1 January 2022) if they have their second dose of a COVID-19 vaccine before the close of 1 January 2022.

In addition, a relevant PCBU must not, on and after 1 January 2022, allow an affected person who provides a home-based education and care service to carry out certain work unless satisfied that every person over the age of 12 years in the home where the home-based education and care service is provided is vaccinated.

Duty on relevant PCBUs to keep vaccination records

A relevant PCBU who employs or engages an affected person who belongs to any of the 3 new groups must keep a vaccination record in respect of the affected person. This record must contain specified information, including information about whether the person is vaccinated, any doses of a COVID-19 vaccine the person has received or the dates by which the person must have any dose to be vaccinated, and, if the person is not vaccinated, whether the person relies on an exemption or authorisation.

Enforcement

A breach of the requirements in the principal order is an infringement offence under section 26(3) of the COVID-19 Public Health Response Act 2020 (the **Act**) for which a person or relevant PCBU is liable to an infringement fee of \$300 or a fine not exceeding \$1,000.

Approval by resolution required

This order must be approved by a resolution of the House of Representatives before the expiry of the period described in section 16(2) of the Act. If that does not happen, the order is revoked on the expiry of that period.
