Explanatory note

This note is not part of the order, but is intended to indicate its general effect.

This order comes into force on 1 April 2023. It amends the Income Tax Act 2007.

Under the Income Tax Act 2007, an inflation-indexed increase to the family tax credit and the Best Start tax credit is required once the cumulative value of quarterly increases in the New Zealand Consumers Price Index (CPI), measured from that applying on 1 October 2021, is 5% or more. CPI data indicates that the 5% threshold

was exceeded by the end of the September 2022 quarter. An adjustment to the family tax credit and the Best Start tax credit is now required. This order—

- adjusts the family tax credit, increasing the eldest child rate from \$6,642 to \$7,121 and the subsequent child rate from \$5,412 to \$5,802; and
- increases the Best Start tax credit from \$3,388 to \$3,632.

The order also increases the minimum family tax credit threshold from \$32,864 to \$34,216 from 1 April 2023 to reflect main benefit increases applying from that date, and revokes the Income Tax (Minimum Family Tax Credit) Order 2019.
