**Schedule 1**  
**Species endangered by trade**

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

When a species is included in this schedule the whole, live or dead, animal or plant is always included.

The entries in the column headed “**Exceptions/limitations**” have the effect of—

- (a) excluding nominated populations in the listed species; or
- (b) limiting the applications of the listed species to only those populations nominated; or
- (c) excluding certain species from a generic listing; or
- (d) excluding nominated varieties of specimens of the listed species.

### Species threatened by trade

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

The entries in the column headed “**Exceptions/limitations**” have the effect of—

- (a) excluding nominated populations in the listed species; or
- (b) limiting the applications of the listed species to only those populations nominated; or
- (c) excluding certain species from a generic listing; or
- (d) excluding nominated varieties of specimens of the listed species; or
- (e) limiting the application of the listed species to only those categories of specimens nominated.

When a species is included in this schedule, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives are also included in the same schedule, unless it is a plant species annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in this schedule refers to a footnote that indicates the parts or derivatives of plants that are designated as specimens subject to this Act. The footnotes are at the end of this schedule.

### Schedule 3

#### Species exploited by trade

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

The countries listed in the column headed “**Exceptions/limitations and countries requiring export permit**” are parties to the Convention that require an export permit to authorise trade in the species listed in this schedule. Trade in those species in relation to other countries that are party to the Convention requires a certificate of origin.

When a species is included in this schedule, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives of the species are also included in the schedule unless the species is annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in this schedule refers to a footnote that indicates the parts or derivatives of plants that are designated as specimens subject to this Act. The footnotes are at the end of this schedule.

## Explanatory note

*This note is not part of the order, but is intended to indicate its general effect.*

This order updates the schedules of the Trade in Endangered Species Act 1989 that list endangered, threatened, and exploited species. The changes align the schedules with changes that have been made to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (the **Convention**).

Most of the changes come into force on 13 July 2023. *Clause 5*, which amends Schedules 1 and 2, comes into force on 25 November 2023. *Clause 6*, which amends Schedule 2, comes into force on 25 May 2024. *Clause 7*, which amends Schedules 2 and 3, comes into force on 25 November 2024. The timing of these changes depends on when the related changes to the Convention take effect.

Issued under the authority of the Legislation Act 2019.  
Date of notification in *Gazette*: 15 June 2023.

## Notes

### **1** *General*

This is a consolidation of the Trade in Endangered Species Order 2023 that incorporates the amendments made to the legislation so that it shows the law as at its stated date.

### **2** *Legal status*

A consolidation is taken to correctly state, as at its stated date, the law enacted or made by the legislation consolidated and by the amendments. This presumption applies unless the contrary is shown.

Section 78 of the Legislation Act 2019 provides that this consolidation, published as an electronic version, is an official version. A printed version of legislation that is produced directly from this official electronic version is also an official version.

### **3** *Editorial and format changes*

The Parliamentary Counsel Office makes editorial and format changes to consolidations using the powers under subpart 2 of Part 3 of the Legislation Act 2019. See also PCO editorial conventions for consolidations.

### **4** *Amendments incorporated in this consolidation*

Trade in Endangered Species Order 2026 (SL 2026/23): clause 6
