Explanatory note

This note is not part of the rules but is intended to indicate their general effect.

These rules, which come into force on 29 September 2025, revoke and replace the Lotto Rules 2000.

The rules provide for the conduct and operation of a New Zealand lottery known as lotto by the New Zealand Lotteries Commission, in accordance with subpart 2 of Part 3 of the Gambling Act 2003. The rules largely reflect the Lotto Rules 2000 as they were immediately before the commencement of these rules, with some amendments to—

- set out the circumstances in which a ticket issued electronically may be cancelled; and
- clarify which rules relating to entry into a game, cancellation of tickets, player responsibility, selections, and players' agents apply to tickets issued in printed form by a terminal and which apply to tickets issued electronically; and
- remove a provision that relates to cancellation of tickets that record lotto strike selections, because those tickets will no longer be separately issued; and
- insert a transitional provision, which provides that tickets issued electronically before 29 September 2025 may be cancelled under *rule 18* as if they had been issued electronically on or after that date; and
- modernise the language used in the rules.

Issued under the authority of the Legislation Act 2019.

Date of notification in *Gazette*: 26 August 2025.

These rules are administered by the New Zealand Lotteries Commission.
