Explanatory note

This note is not part of the regulations but is intended to indicate their general effect.

These regulations, which come into force on 1 December 2025, are made under section 133 of the Customer and Product Data Act 2025. The regulations—

- require the payment of fees on application for accreditation as an accredited requestor and for renewal of that accreditation; and
- prescribe the amounts of those fees.

The fees for an application for accreditation are as follows:

- \$2,000, if the application is made in respect of a class of accreditation that involves acting as an intermediary to make requests;
- \$1,500, if the application is made in respect of a class of accreditation that involves making requests other than when acting as an intermediary.

The fees for an application for renewal of accreditation are as follows:

- \$1,700, if the application is made in respect of a class of accreditation that involves acting as an intermediary to make requests;
- \$1,000, if the application is made in respect of a class of accreditation that involves making requests other than when acting as an intermediary.

The **classes of accreditation** are the classes set out in the Customer and Product Data (Designations for Banking and Other Deposit Taking) Regulations 2025. The term **acting as an intermediary** has the meaning given to it by those regulations.

If an application is made in respect of 2 or more classes of accreditation, then the applicant is only required to pay 1 fee, whichever applicable fee is greater.

These fees are exclusive of goods and services tax.
